

ARK PRESS QUOTES;

Tyler Johnson, [www.scenedaddy.com](http://www.scenedaddy.com), on "C'est La Vie"

*Classic rock, modern metal, and infectious alt-rock are the first descriptors that come to mind when discussing Arkangela...A melodic fusion of Avenged Sevenfold and HIM, this four-piece band draws influence from every aspect of rock and metal to support their self-reflective lyricism.*

Jasmine James, [www.ghostkillerentertainment.com](http://www.ghostkillerentertainment.com), on "Take It To Your Grave"

*Take It To Your Grave Is a fast paced and erratic anthem of Machiavellian justice, conveying a message of questioning authority and perspective of ideals...It features high energy riffs, and leads that remind us of an Avenged Sevenfold song. The vocals are very energetic. We would definitely recommend it!*

LJ Dewitt, [www.sozanashville.com](http://www.sozanashville.com) on "Tempus Deserta" as a whole

*I've said it before, I'll say it again—Bands like Arkangela are the ones that make my job worthwhile. Despite the hardships, they remain one of the kindest and upbeat bands you could ever meet. Like coal turning to diamond, the pressure has only refined them into a better version of themselves. Tempus Deserta is a marvelously macabre body of work.*

Drift N' Die Press, [www.driftndiepress.com](http://www.driftndiepress.com) on "LIMBO"

*"Their sound is unlike anything I've heard...I know Arkangela have the capabilities to become true trailblazers in modern metal."*
